**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 fails to recite sufficient structural elements and interconnection of the elements to positively position and define "a bottom abutting exactly the top of the secondary transverse beam" (claim 1) so that an integral structure able to function as claimed is recited.

***Allowable Subject Matter***

The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not teach or suggest a runner including a primary transverse beam having a side, a secondary transverse beam having a top and attached to the side of the primary transverse beam, a track assembly attached to the side of the primary transverse beam having a stationary track attached to the side of the primary transverse beam and having a bottom "abutting exactly" the top of the secondary transverse beam.

Claims 1-3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 3637

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Henkel, Gruender, Schultz, De Gaal, Edelson, Rudow et al, Cooper, Green, Lowe, Wang teach structure similar to applicant's.
